Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 – 7 and 10 - 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,832,086 (Powers et al.) in view of U.S. Patent No. 6,125,390 (Touboul)

With respect to claims 1 – 7 and 10 - 15 note Abstract, Col. 2, lines 9 – 55, Col. 3, lines 6 – 26, and Col. 5, line 3 – Col. 6, line 21. With respect to connectionless, note Col. 8, lines 44 – 55.

Powers teaches the claimed limitations except agent to manager notification or event identification. Note that Touboul teaches both limitations. Note, at least, the Abstract and Col. 19, lines 45-62 and Col. 8, lines 18 – 26 of Touboul. It would have been obvious to one of ordinary skill in the art to have such limitations as taught by Touboul into the Powers et al. device in order to create a more efficient system.

Claims 8 – 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Powers et al. /Touboul in view of U.S. Patent No. 6,477,585 (Cohen et al.).

Powers et al./Touboul teach the claimed device as shown above, except for the Notification Name, Notification Identifier and Notification Generation. However, Cohen et al. teaches such (see Col. 19, lines 19 – 24 and Col. 20, lines 45 – 54). It would have

been obvious to one of ordinary skill in the art to use IDS and timestamps such is notoriously old in the art. It would have been obvious to one of ordinary skill in the art to use IDs and timestamps wherever it was deemed necessary.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Please note the Abstracts and Figs. of the references on the accompanying 892.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
